Art and Design

We offer two courses that are developed in Key Stage 3 to develop your creative skills and produce a final portfolio.

Our course gives pupils the opportunity to explore fibres and associated materials, costume, accessories and props.

If you are considering a career in the creative industries, you will be motivated, self-motivated, hardworking, resilient, time limited, working under pressure and able to work independently.

Coursework

Controlled assessment

The preparatory work for the final portfolio is done in a controlled environment.
