

# St. Augustine's School

## Curriculum Intent Statement

### Curriculum intent:

In order to fulfil our mission to 'Love and Serve through Christ' we provide a curriculum that supports all our pupils on their journey to attaining the knowledge and skills they need. We are ambitious for our pupils and are committed to providing a high quality curriculum that will enable them to make the best use of their God-given talents. We recognise that each and every one of our pupils is made in God's likeness and our teaching practices allow us to know our pupils so that we may best serve their educational needs. As a school community we are aware that we are stewards of an education tradition dating back more than a thousand years. We seek to ensure that the equality of opportunity and the development of the individual honours our best traditions and builds a legacy that will serve the members of our community in the years to come.
